**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to  
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

After using both AT&T and Comcast for years I finally switched to a small and independent internet provider. The customer service is incredible, and they provide gigabit for less money than a slower Cable internet connection from Comcast. We need more providers and increased competition in this space. As a software developer it is essential that I have fast, reliable internet. Please increase competition in this area, it is the only way for the US to catch up to the rest of the developer world in internet access and speed.
